Information Guide

**PROVIDING
OFFICIAL GEOGRAPHIC NAMES
FOR OVER A CENTURY**

U.S. Board on Geographic Names

The U.S. Board on Geographic Names (BGN) develops the principles, policies, and procedures governing the place name usage for official Federal Government purposes. In fulfillment of this mission, the BGN oversees the official United States Government repositories of geographic names.

BGN geographic names resources are available for the following four major areas:

- Domestic names
- Foreign names
- Antarctic names
- Undersea feature names

Website

Geographic names resources are available at the BGN's home page:

<http://geonames.usgs.gov/>

The website provides access to all four areas of place name resources through query interfaces to the BGN's on-line databases, as well as download capabilities for larger place name files.

Place Name Inquiries

Any person or organization, public or private, may make inquiries to the Board, or request the Board to render formal decisions on place names.

Domestic Names

The BGN's Domestic Names Committee provides guidance and decisions for names of geographic entities in the United States and areas under its sovereignty.
